Subject: Fwd: Urgent: BBC set to misreport UN pledges
again at next week's Summit
To: jesse.norman@parliament.uk, csmcom@parliament.uk

Dear Mr Norman,

Thank you for your courtesy when I interrupted the
Committee meeting yesterday.

I am afraid the BBC has repeatedly told the world
falsehoods about World Bank poverty statistics
methodology, UN "clean water" statistics and government
pledges, even after acknowledging or correcting the same
errors after complaints.

I propose that you forward this email to the Director-
General, just in case during next week's UN Summit the
BBC again gives the impression that the Millennium
Declaration has easier 1990 baselines. The BBC Trust
got the story wrong even after investigating. Something
is badly wrong.

Yours sincerely,

Matt Berkley
