...11 was established. MDG 7, Target 11 aims to improve access to drinking water and sanitation in the developing global community by reducing the number of people who were without access to water in 1990 by half (Palaniappan 2009). ~~As of 2008 , many countries in Latin America had met or were on track to meet this goal.~~ ^{safe} but developing nations in the Oceania region were performing poorly (UN-Water 2008). A key impediment for these states is that agriculture, manufacturing, mining, and logging are increasing water usage without controls in place to...
